

Map showing predicted visitor pressure, using model developed by Footprint Ecology / CEH, in relation to actual routes taken by people interviewed in the visitor survey of the Thames Basin Heaths. Access points where interviews took place are shown by yellow dots.

The visitor model is based on cells of 50m x 50m. This map is reproduced from Ordnance Survey material with the permission of Ordnance Survey on behalf of the Controller of Her Majesty's Stationary Office © Crown copyright.
