

INDEX OF DATA SOURCES FOR DATA MEETING

3. Water

To inform Policies NRM1 and NRM2, and also to inform the development of the rest of the SE Plan, the Assembly has drawn on work undertaken by the Environment Agency and water companies.

The reports are on the Assembly's website:

Water Resources

For water resources work, this involved the Water Resources South East group that also involves OFWAT and English Nature.

(May 2006)

http://www.southeast-ra.gov.uk/southeastplan/publications/research/aeat_energy_supply_in_the_se-final_report_may_05.pdf (May 2005)

http://www.southeast-ra.gov.uk/meetings/advisory/nat_res/water_report.pdf (September 2004)

These reports draw on water company plans and Environment Agency water resource strategies, that can be made available by these organisations. The Assembly has relied on the modelling reports rather than these source documents.

Water quality

Work is ongoing by EA, Southern Water and Thames Water to refine the report, including identifying and costing of options to overcome concerns and issues relating to water quality and growth for specific areas, sewage treatment works and their discharge points. A revised summary report and full technical report are expected to be available prior to the Data Session.
